Is anyone here a Freemason? Freemasonry is NOT a religion, and many muslims around the world, are brother Freemasons. If you are a Freemason, or you are interested in the topic, please let me know.

There is always a conspiracy against Muslims, may that be Jew, Christians, or free-masons.

My uncle is a Freemason and I was invited to be an Eastern Star (the female organization of Masons).

No, Freemasonry is not a religion. In fact, the modern freemasons are nothing like the original organization.

The Freemasons were once a political ideology that they believed was inspired by God. Now, they are a social club as of about the 1880s. The accusations of World control come from the Guilded Age membership of members of the families Astor, Rockefeller and other wealthy families.

There is a requirement that one must believe in a Divine Being to be a member, but Jews, Christians and Muslims can be members. Atheists cannot.

The subgroup known as the Shriners are known for their philanthropic endeavors and call their meeting houses Mosques.

From what I know, Freemasons have been around for a long time no ones the exact begining but the Grand Lodge of England was formed early 1700's joining four lodges already in existence.

Politics and religion are not allowed to be discussed at meetings and that members should obey the law in the country they live in.

Freemasons maybe a social club but I believe they are more than that but not a religious group either, they believe in the supreme God with the collective name of the Grand Architect of the Universe, as this provides a harmony among members who come from different religions.

I've read literally about a hundred books on Freemasonry and Im still not sure what they are.

There seem to be two main theories about them:

1) They are Druids

2) They are Templars

The druids were themselves somewhat secretive and the Templars were of course a secret society whose high ranking members secretly worshipped a monster called Baphomet and sacrificed children to idols and are even said to have burnt babies and then ate the remains believing that they would gain special powers by doing so.

The Templars were also responsible for the massacre of thousands of Muslim civilians during the Crusades and were known to have raped many Muslim women, as did most other military orders.

The Templars were one of many Military Orders fighting under orders of the Church but the Church later turned against them when it was exposed that they were not Christians but Satanists in disguise.

Philip the King of France encouraged the Pope not to fear them and to destroy them, however the Pope was still reluctant and forgave most of them and only killed a small number of them.

According to some, the Templars then went to Scotland where they became known as Freemasons, or they went to Bavaria and became known as the Illuminati.

Interestingly according to some George W Bush is a descendent of one of the Templar leaders...
